July 21-24, 2008 – GFR Support Services

FFP 2120 FIRE SERVICE BUILDING CONSTRUCTION (40 contact hours, 3 college credits)

Textbook: Building Construction For The Fire Service/Brannigan 3rd Edition

Course Fee: \$60.00 payable to Florida Department of Financial Services

The curriculum in this portion of the Fire Prevention Inspection Certification Program deals with building construction. Topics include identifying hazards from assault by fire and gravity, how building construction can influence fire spread, fire confinement or structural collapse, and many other life safety issues. This is not a building course per se, but rather a course to identify construction features and their hazards under fire conditions.

NOTE: This course may require work to be done prior to and /or following attendance at the course. Students will be notified prior to the class. Part of Fire Inspector I, Fire Investigator I, and Fire Officer I.
